Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Saturday 09 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming cloudy and less cold.

This Evening and Tonight:
Turning cloudy this evening, accompanied by light rain in the north of the region which will linger throughout the night. There is a risk of ice as this precipitation falls onto frozen ground. Becoming windier too. Minimum temperature -2 deg C (28 deg F).

Sunday:
Fog to start for many on Sunday, which may be slow to clear. Otherwise, patchy light rain and drizzle throughout the day. Breezy but less cold than of late. Maximum temperature 7 deg C (45 deg F).

Outlook for Monday to Wednesday:
A murky outlook; cloud, rain and windy conditions on Monday, with temperatures rising closer to average. Wind and rain easing on Tuesday, further wet and perhaps wintry weather into Wednesday.
